Somerset Orthopedics, Inc. is in the process of implementing ePrescribing in our office.

ePrescribing is a federally-mandated initiative that requires all physicians prescribe in this manner.

ePrescribing software sends prescriptions over the internet to your pharmacy in a safe, secure way, through the same technology used by credit card companies. This helps protect the privacy of your personal information.

ePrescribing software also lets your doctor see important information – like drug interactions and your prescription history.

The benefit to you:

- Less confusion over handwritten prescriptions or unclear phone calls
- Reduced possibility of medical errors
- Less chance of adverse drug reactions
- Fewer trips to drop off at the pharmacy
- A safe, faster, easier way to get your prescription filled

Patient Consent:

I agree that Somerset Orthopedics, Inc. may request and use my prescription medication history from other healthcare providers or third party pharmacy benefit payers for treatment purposes.
